

FOREST FORUM 12/17/09

A Message From the Principal...

As we approach the end of 2009, I wanted to extend my warm appreciation for the fine work that has been thus far accomplished here at Forest Road. You, as a community, have welcomed me as a new administrator and have been an active participant in your child's school experience. I have had the opportunity to meet with many of our families who have shared their observations, thoughts, concerns, feedback and suggestions. It has been a pleasure to get to know both you and your children. As we move into the New Year, I know we will see continued success, as we work together in our partnership.

Our goal is the same...the well-being and success of each child. As we reflect back upon this past year and make plans for the next, please keep in mind that you are a welcomed member in your child's education. It is important for children to see the connection between home and school and to recognize that we have shared expectations. Please consider speaking with your child's teacher about visiting their class to share a personal story, talent, skill, or experience. You are a wonderful resource and can very easily compliment the learning experiences of our kids by giving of your time. Remember, I asked for parents to make the 2 In 10 Pledge...two hours of your time over 10 months of school. It is up to you to determine how you feel most comfortable contributing to our school.

However your family celebrates the upcoming holidays and New Year, it is my wish for you all to enjoy family, health, joy and peace. Have a wonderful vacation!

Warm Regards,
Mrs. Malone
